

Revit® Architecture Advanced

Objective: Broaden your knowledge of Revit® in the areas of Conceptual Design and BIM Management by exploring exercises in mass studies, space planning, visualization, rendering and creating custom families.

Course Length: 2 days (16 hours)

Day 1

Conceptual Design

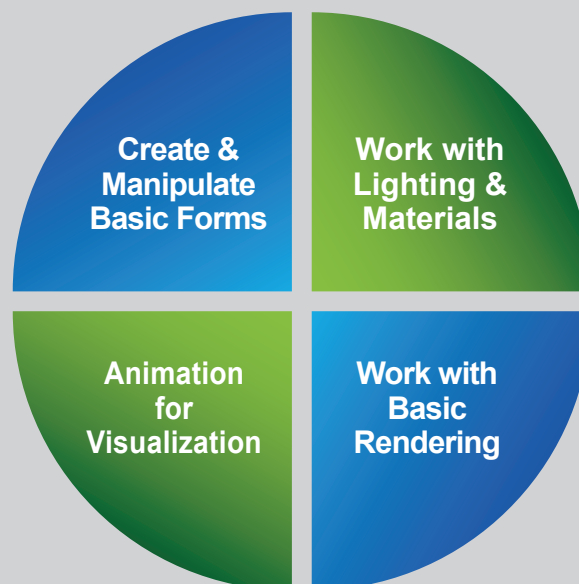

- Massing Studies
- Space Planning & Area Analysis
- Visualization
- Rendering

Day 2

BIM Management

- Creating Custom Templates
- Custom Walls, Roofs, & Sections
- Family Concepts & Techniques
- Creating Specific Families

- Lunch is included when training at our facility.
- Class is from 8:30 a.m. to 4:30 p.m.
- Students will receive a certificate upon completion.
- After completion of an entire class, students may audit the same class for one year, if space is available in the class.
- Attend the class in person at our training center in Atlanta or virtually from anywhere in the world via the internet

Advantages to Training at Repro Products' Autodesk® Authorized Training Center:

- Learn from our Autodesk Certified instructors at our superior facilities.
- Receive Autodesk® recommended content from Autodesk® Official Training Guides.
- Get your hands on sample projects and exercises that emphasize real-world application.

Prerequisites: A working knowledge of basic design/drafting procedures and terminology as well as Microsoft operating system. Revit® Architecture Intermediate or equivalent training or experience is highly suggested.

Call 678-640-9965 to schedule your training.
